Rini Febri

Informatics Student | Front-End Web Developer

Daerah Istimewa Yogyakarta, Indonesia

Ringkasan

I am an Informatics student with an interest in web development, artificial intelligence, and machine learning. I enjoy learning new technologies and building projects that can solve real-world problems. Currently, I am developing AgriVision AI, a web-based application for plant disease classification using AI technology. Through this project, I learned about front-end development, API integration, and user interface design. I have experience using React.js, JavaScript, HTML, CSS, Tailwind CSS, and GitHub. I am passionate about improving my technical skills and creating useful digital solutions. I am also participating in DBS Coding Camp to strengthen my programming, web development, and problem-solving skills.

Pengalaman

AgriVision AI

Frontend Developer

April 2026 - Present (2 bulan)

Developed a responsive web application for plant disease classification using React.js and Tailwind CSS. Implemented image upload features, API integration, and user-friendly interfaces as part of a collaborative project.

Coding Camp powered by DBS Foundation

Coding Camp Participant

Februari 2026 - Present (4 bulan)

Participating in DBS Coding Camp to improve programming, web development, and problem-solving skills through hands-on projects, collaborative learning, and intensive coding activities.

Pendidikan
